

AVISCERA BIOSCIENCE

Rabbit Anti-Human Soluble LAIR1/CD305 IgG

Product Information

Code	A00410-01-100
Name	Anti Human Soluble CD305 IgG
Clone No.	Polyclonal
Lot No.	
Size	100 µg
Species	Human
Host	Rabbit
Immunogen	sCD305(H), rec.
Ab Type	Rabbit IgG
Purification	Protein A
Formulation	lyophilized Form without preservatives free
Carry	
Storage	-20 ° C
Specificity	H
Reconstitution	PBS, 100 µl
Application	IHC ELISA

Preparation

This antibody was produced from a rabbit immunized with purified, *E. coli*-derived, recombinant human LAIR1/CD305 ECD that was purified by Protein A.

Formulation

100 µg of rabbit anti-human soluble LAIR1/CD305 IgG in 100 µl PBS without preservatives was lyophilized.

Reconstitution

Add 50 µl of PBS to the vial to prepare antibody stock solution at 100 µg/100 µl. Store reconstituted antibody at 2 to 8 ° C for up a few weeks. This antibody can also be aliquotted (by 10 µL per vial) and stored frozen at -20° C to -70° C in a **manual defrost freezer** for up six months without detectable loss of activity.

Storage

Lyophilized antibody can be stored at 2 ~8 ° C for a few weeks or at -20 ° C for six months. **Avoid repeated freeze-thaw cycles.**

Specificity

This antibody has been selected for its ability to recognize human soluble LAIR1/CD305 on indirect ELISAs.

Applications

Indirect ELISA - This antibody can be used at 1:10000 (0.1 µg/ml) with the appropriate secondary reagents to detect human soluble LAIR1/CD305.

Immunohistochemistry-This antibody can be used at 2-4 ug/ml with the appropriate secondary reagents to detect human soluble CD305 on paraffin embedded human lung tissues (ABC).

Optimal dilutions should be determined by each laboratory for each application.
