Anti-Human Latency-Associated Peptide (LAP) /Pro-TGF-beta 1 (Leu30-Arg278) IgG

Product Information

Code	A00033-01-100
Name	Anti Human LAP IgG
Clone No.	Polyclonal
Lot No.	
Size	100 µg
Species	Human
Host	Rabbit
Immunogen	Human LAP/Pro TGF Beta 1 (30- 278), rec.
Ab Type	IgG
Purification	Protein A
Formulation	lyophilized form without preservatives
Carry	free
Storage	-20 ° C
Specificity	Human
Reconstitution	100 µl
Application	ELISA

Preparation

This antibody was produced from a rabbit immunized with purified recombinant the human LAP/Pro-TGF Beta 1 (30-278). That was purified by Protein A affinity.

Formulation

100 µg of rabbit anti- human LAP/Pro-TGF Beta 1 (30-278) IgG in 100 µl of PBS without preservatives in lyophilized form.

Reconstitution

Add 100 µl of PBS to the vial to prepare antibody stock solution at 100 µg/100 µl.

Store reconstituted antibody at 2 to 8 ° C for up a few weeks. This antibody can also be aliquotted (by 10 µL per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for up six months without detectable loss of activity.

Storage

This lyophilized antibody can be stored at 4 ° C for a few weeks. It can be stored frozen at -20° C to -70° C **in a manual defrost freezer** for up six months without detectable loss of activity.

Specificity

This antibody has been selected for its ability to recognize human LAP/Pro-TGF Beta 1 (30-278) on indirectly ELISA and immunohistochemistry.

Applications

Indirect ELISA - This antibody can be used at 0.5-1 µg /mL) with the appropriate secondary reagents to detect recombinant human LAP/Pro-TGF Beta 1 (30-278) on indirect ELISA.

Immunohistochemistry-That Antibody can be used at 2-4 µg/ml with the appropriate secondary antibody to detect LAP/Pro-TGF Beta 1 in the paraffin embedded human, mouse and rat lung tissues (ABC).

Optimal dilutions should be determined by each laboratory for each application.
