Commander's Message

We have 17 students enrolled in our Battle Creek ABC or America's Boating Course. Think about coming to a "meet and greet" on the last night of class, Thursday 16 May from 7 to 9. If you would like to help grade tests, call Karen (964-6690).

Our Kalamazoo ABC class starts Monday 6 May and will run for 4 consecutive nights that week. We are hoping for a good turnout. Tell all boaters. Call Wally (365-3398) if you can help grade tests on Thursday 9 May from 6 to 8:30 pm at Lord of Life Lutheran in Portage or come for a "meet and greet". We could use volunteers to help make and/or bring refreshments.

Another sure sign that people in SWMI think spring is just around the corner is we received two requests for Vessel Safety Checks. These were both in the Battle Creek area. The US Coast Guard system uses zip code to match a boat owner with a Vessel Examiner. We have 5 KSPS and 1 USCG-Auxiliary Vessel Examiners that pop-up for Battle Creek. So we don't overwhelm the boater, we will coordinate by having the VE closest in miles respond first. If they cannot do a VSC right away, that VE should let the next closest VE know immediately.

USPS and Amateur Radio both celebrate 100th Anniversary

The theme for 2013 is Amateur Radio: Entering Its Second Century of Disaster Communications. The theme commemorates the first known use of Amateur Radio in a disaster situation: Herbert V. Akerberg -- a 15-year-old from Hilltop, Ohio -- is believed to be the first person to use Amateur Radio to call for help during a disaster. In late March 1913, the Scioto River in downtown Columbus, Ohio flooded its banks, killing more than 100 people. Akerberg used his home radio transmitter to send SOS calls via Morse code for nearly 72 hours. In 1914 both USPS and the first radio clubs were established. Learn to become an amateur radio operator - see page 4.

Presentation for May

Our speaker is Captain Bob McAlear. We will be meeting at Brewsters - 5315 Portage Rd (1st left at first light south of I-94). Social time 6:30 pm, Dinner at 7

Come learn about the passenger ships that have called Saugatuck home for many decades. Captain McAlear will share some of the history of famous ships from this area. Since this newsletter goes to those near and far, Saugatuck and Douglas are small adjacent resort towns in West Michigan on the shore of Lake Michigan, and at the mouth of the Kalamazoo River and Lake Kalamazoo.

The Queen of Saugatuck was built about three miles east of Saugatuck. She was replaced by the Saugatuck Star II in 2002. The SS Keewatin came in 1966. Details about the ships appear on page 3.

The Stars of Saugatuck

May's presentation continued . . . From their website . . .

The Queen of Saugatuck was 57 feet long, 14 feet in beam, and held 82 passengers, plus a crew of two. She had a single paddlewheel in the stern, but after being in service several years, the wheels were split to allow additional maneuverability of the vessel. In 1992, the vessel's name was changed to Star of Saugatuck to incorporate the use of the family name. The Star was used until June of 2000, when Star of Saugatuck II went into service. In May of 2002 the original Queen of Saugatuck or Star I, was sold and trucked to Waco, Texas, and has been renamed Spirit of the Rivers. Unfortunately the new owner sank her in 2008 and she is not operational at this time.

The Star II is a U.S. Coast Guard certified and annually inspected paddle-wheel boat. It will open for the season May 4th, 2013. Learn more at: <http://saugatuckboatcruises.com/aboard.htm>

The Star of Saugatuck II is an authentic sternwheeler paddleboat. On board, you'll generally travel up the Kalamazoo River while viewing the picturesque town of Saugatuck and surrounding areas. Weather permitting, it does venture out into Lake Michigan. The Star of Saugatuck boat trips usually last 70 to 90 minutes.

Memorial Day 2002 - Star of Saugatuck II is on the right. Star of Saugatuck I is to the left - has been sold and is in Waco, TX

The Keewatin - <http://sskeewatin.com>

The SS Keewatin is a century old Canadian Pacific Great Lakes steam ship. The ship has a long history from when she was built in 1907 with over 60 years in Ontario. The Keewatin carried 288 passengers with a crew of 86. She was 350 feet long with a 3200 hp coal boiler. Top speed 14 knots. She provided transportation from Port McNicoll Ontario on Georgian Bay to Fort William and Port Arthur (which became Thunder Bay). The journey took 2 & a half days across Lake Huron and Lake Superior with a half day stop in Sault Saint Marie.

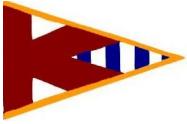

Line is US / Canadian border, not the ship's course.

Built in Scotland, the SS Keewatin is an Edwardian passenger liner that began her service in the Canadian Pacific Railway Great Lakes Steamship fleet in 1907.

Keewatin was retired on 28 November 1965 at Port McNicoll. In 1967, she was purchased and towed via tug by R J Peterson of Douglas MI. There she was established as a Maritime Museum and was lovingly cared for by the Petersons for 45 years. The ship was built 5 years before the RMS Titanic.

In 2012, the Friends of Keewatin had the opportunity to purchase Keewatin and return her to Ontario. Keewatin will have her official opening in Port McNicoll on **Saturday 11 May 2013**, (season ends mid Oct.).

To tour the upper deck and engine room, **group** rates are a donation of \$12 per person by making a single payment to "Friends of Keewatin". All prices include tax. Individual admittance is \$15 for the upper deck and \$7 for the engine room. Youth 10 to 16 - \$7.50 for upper deck and \$4 engine room. Children under 10 free with paid adults.
