Function

1. With the professional-grade reverb chipset, you receive a perfect blend between microphone vocals and accompanying sound, thus preventing any separation between the two.
2. Professional echo effect can be adjusted for the occasion and preference creating a KTV effect.
3. Ordinarily, when inserting microphone or headset into a computer directly, a large current noise and/or dry is emitted. Now, with the function of Noise Reduction process you achieve clearer vocals.
4. Support Smart Phones, Tablets, Laptop PCs, Smart TV via Audio Input
5. Use indoor, outdoor, on-the-go travels and virtually any environment.
6. Dual microphone interface, supports independent adjustment of microphone volume.

Specifications:

Element: Condenser
Sensitivity: 10Mw
Reverberation: Echo Reverberation
Battery: Built-In Lithium-Ion Battery
Charging Power Output: 126dB 1KHz THD 1%
