Characteristic

- Power
  - Wide voltage range: 90-250V AC
  - Low power consumption design, the power consumption of system less than 25W
- Compatibility
  - It can play following discs: large capability MIDI disc (including singers voice) and CD, CD+G, VCD, MP3, DVD, AVI, JPEG
- System function
  - Video output
    - Including five modes: VIDEO OUT, S-VIDEO, VGA, SCART, interlace VIDEO (Y, U, V).
  - Video output system
    - PAL/NTST/AUTO
  - TV screen mode output
    - Normal/PS , Normal/LB , Wide
  - Audio output
    - (5+1) audio output
    - Coaxial cable and optical fiber (two output model)
    - Support L/R audio output
- USB and CARD
  - This player can play movies, music and photos which are saved in USB or CARD, such as SD, MMC, MS
- Accessorial function of system
  - New human face and select song mode, make you looking for songs convenience
  - The disc contains the picture of high definition, moving background.
  - The Disc has singer's voice as well as a plenty of midi songs , dance music, celebration songs and so on.
  - More than one music effect mode to meet your different demand of enjoying music.
  - Digital karaoke, key control function for karaoke
  - The scoring function is able to realize pastime goal
  - Multifunction menu for remote control
  - Built-in multiple countries language, convenient for customers
  - Multi-angle, multi-audio function
  - Multi-level fast forward, fast backward, slower motion
  - Zoom, program, step play, resume stop and repeat function

## Safety precautions

### Warning:

To reduce the risk of fire or electric shock don't expose this appliance to rain or moisture and don't remove cover.

### Caution:

This player is a class 1 laser product.

Use of controls adjustment or performance of product other than those specified herein may result in hazardous radiation exposure.

As the laser beam used in this player is harmful to the eyes, refer servicing to qualified only

### Safety precautions:

This equipment has been tested and found to comply with the limits which are designed to provide reasonable protection against harmful interference in a residential installation.

## Servicing precautions

1. Read owner's manual  
After unpacking this product, read the owner's manual carefully, and follow all the operating and other instructions.
2. Power sources  
This product should be operated only from the type of power source indicated on the rear panel. If you are not sure of the type of power supply in your home, consult your products dealer or local power company. For products intended to operate from battery, or other sources, refer to the operating instructions.
3. Ventilation  
The product should never be on a bed, sofa, rug or other similar surface. This product should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer's instructions have been adhered to.
4. Heat  
The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.
5. Water and moisture  
Do not use this product near water—for example, near a bath tub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool and the like.
6. Cleaning  
Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
7. Power-cord protection  
Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, playing particular attention to cords at plugs, convenience receptacles, and the point where they exit from the product.
8. Overloading  
Do not overload wall outlets; extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
9. Lightning  
For added protection for this product during storm, or when it is left unattended and unused for long periods of time, unplug it from the outlet. This will prevent damage to the product due to light and power-line surges.
10. Object and liquid entry  
Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
11. Attachments  
Do not use attachments not recommended by the product manufacturer as they may cause hazards.
12. Accessories  
Do not place this product on an unstable cart, stand, tripod, bracket, or table. The product may fall, causing serious injury to a child or adult, and serious damage to the product. Use only with a cart, stand, tripod, bracket, or table recommended by the manufacturer, or sold with the product. Any mounting of the product should follow the manufacturer's instructions, and should use a mounting accessory recommended by the manufacturer.
13. Disc tray  
Keep your fingers well clear of the disc tray as it is closing. Neglecting to may cause serious personal injury.
14. Burden  
Do not place a heavy object on or step on the product. The object may fall, causing serious personal injury and serious damage to the product.
15. Disc  
Do not use a cracked, deformed, or repaired disc. These discs are easily broken and may cause serious personal injury and product malfunction.
16. Damage requiring service  
Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:  
a) When the power-supply cord or plug is damaged.  
b) If liquid has been spilled, or objects have fallen into the product.  
c) If the product has been exposed to rain or water.  
d) If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation.  
e) If the product has been dropped or damaged in any way.  
f) When the product exhibits a distinct change in performance -this indicates a need for service.
17. Servicing  
Do not try to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
18. Replacement parts  
When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristic as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
19. Safety check  
Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is proper operating condition.

## Note

### PRECAUTIONS

#### NOTES ON HANDLING

- When shipping the DVD video player, the original shipping carton and packing materials come in handy. For maximum protection, repack the unit as it was originally packed at the factory.
- Do not use volatile liquids, such as insect spray, near the DVD video player. Do not leave rubber or plastic products in contact with the DVD video player for a long time. They will leave marks on the finish.
- The top and rear panels of the DVD video player may become warm after a long period of use. This is not a malfunction.
- When the DVD video player is not in use, be sure to remove the disc and turn off the power.
- If you do not use the DVD video player for a long period, the unit may not function properly in the future. Turn on and use the DVD video player occasionally.

#### Notes on locating

- When you place this DVD video player near a TV, radio, or VTR, the playback picture may become poor and the sound may be distorted. In this case, place the DVD video player away from the TV, radio, or VTR.

#### Notes on cleaning

- Use a soft, dry cloth for cleaning.
- For stubborn dirt, soak the cloth in a weak detergent solution, wring well and wipe. Use a dry cloth to wipe it dry. Do not use any type of solvent, such as thinner and benzene, as they may damage the surface of the DVD video player.
  - If you use a chemical saturated cloth to clean the unit, follow that product's instructions.

#### To obtain a clear picture

The DVD video player is a high technology, precision device. If the optical pick-up lens and disc drive parts are dirty or worn down, the picture quality becomes poor. To obtain a clear picture, we recommend regular inspection and maintenance (cleaning or parts replacement) every 1,000 hours of use depending on the operating environment. For details, contact your nearest dealer.

#### Notes on Moisture Condensation

**Moisture condensation damages the DVD video player. Please read the following carefully.**

Moisture Condensation occurs, for example, when you pour a cold drink into a glass on a warm day. Drops of water form on the outside of the glass. In the same way, moisture may condense on the optical pick-up lens inside this unit, one of the most crucial internal parts of the DVD video player.

#### Moisture condensation occurs during the following cases.

- When you bring the DVD video player directly from a cold place to a warm place.
- When you use the DVD video player in a room where you just turned on the heater, or a place where the cold wind from the air conditioner directly hits the unit.
- In summer, when you use the DVD video player in a hot and humid place just after you move the unit from an air conditioned room.
- When you use the DVD video player in a humid place.

#### Do not use the DVD video player when moisture condensation may occur.

If you use the DVD video player in such a situation, it may damage discs and internal parts. Remove the disc, connect the power cord of the DVD video player to the wall outlet, turn on the DVD video player, and leave it for two or three hours. After two or three hours, the DVD video player will have warmed up and evaporated any moisture. Keep the DVD video player connected to the wall outlet and moisture condensation will seldom occur.

## Disc

**This player can play following discs:**

### PBC menu:

It is recorded in Vcd2.0 disc ,showing the content of the disc and convenient for customers to look up program

### CD+G:

Disc is CD including image information. Image is information about songs. For example: lyric , photo or character

## Remote control

## How to use remote control

### Power sources for the remote controller.

The remote controller is powered by two A7(AA SIZE) batteries.

### Caution for battery replacement.

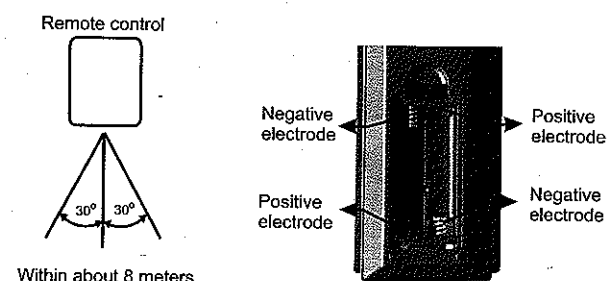

Load the new batteries with their polarities (+ and -) aligned correctly.

Do not apply heat to batteries short-circuit may occur.

If you do not intend to use the remote controller for a long period of time, remove the batteries and store them in a cool and dry place.

Remove spent batteries immediately and dispose of them.

Do not use an old and a new batteries together. (Also never use an alkaline battery with a manganese battery.)

### Notes on batteries

Improper use of batteries may cause battery leakage and corrosion. To operate the remote control correctly, follow the instructions below.

Do not insert batteries into the remote control in the wrong direction.

Do not charge, heat, open, or short-circuit the batteries. Do not throw batteries into a fire.

Do not leave dead or exhausted batteries together, or mix old and new batteries.

If you do not use the remote control for a long period of time, remove the batteries to avoid possible damage from battery corrosion.

If the remote control does not function correctly or if the operating range become reduced, replace all batteries with new ones.

If battery leakage occurs, with the battery liquid from the battery compartment, then insert new batteries.

\* Do not expose the remote sensor of the DVD video player to a strong light source such as direct sunlight or other illumination. If you do so, you may not be able to operate the DVD video player via the remote control.

### Notes on the remote control

Direct the remote control at the remote sensor of the DVD video player.

Do not drop or give the remote control a shock.

Do not leave the remote control near an extremely hot or humid place.

Do not spill water or put anything wet on the remote control.

Do not open the remote control.

## System connection

⚠ Please switch off the power before connecting.

Connect to TV with AV input

Connect to TV with S-VIDEO input

Connect to TV with VGA input or monitor

※ User can select any kind video output mode among VIDEO, S-VIDEO, VGA and YCb(Pb)Cr(Pr) in setup menu.

## System connection

Connect to TV with SCART input

Connect to TV with Y,Cb/Pb,Cr/Pr input
