

Wet-listed Marquee 2.5-watt LED Lamp

MaxLite's Wet-listed Marquee 2.5-watt LED lamp is designed to generate up to 85 percent in energy savings to replace standard 10- to 15-watt incandescents and three- to five-watt cold-cathode fluorescent (CCFL) lamps. The ETL-listed marquee lamp delivers a L70 lifetime of 50,000 hours and can be programmed for outdoor, chasing signage applications at hotels, casinos, resorts, or amusement parks.
