IMPORTANT SAFETY INSTRUCTIONS

When installing or using this product, basic safety precautions should always be followed including the following:

1. Read all instructions before attempting to install this product.
2. Ensure main power is off before installing or wiring this product.
3. Ensure correct voltage is being used for this product.
4. Disconnect electrical power before adding to or changing the configuration of this product.
5. Suitable for wet, damp, and dry locations.
6. Fixtures must be installed by a qualified electrician in accordance with all national and local electrical and construction codes and regulations.

! Visit www.jescolighting.com to download the latest product specification sheet.
Due to continual product improvements and updates specifications are subject to change without notice.

INSTALLATION INSTRUCTIONS

1. Configure the design, layout, and electrical plan before attempting to install this product.
2. If installing optional opal cover, slide it into the grooves along the fixture. Attach the opal cover end caps (Fig 1).
This step may be skipped for installations without the opal cover.
3. Install mounting clips to the mounting surface and insert fixture into the mounting clips (Fig 2).
4. Connect fixtures and tighten waterproof connector. Important: Insert the end cap on the last fixture of the run. (Fig 3).
5. Connect the power supply to the fixture.
6. Turn the power on. Check all fixtures to make sure they are running properly. If fixtures are not running properly, check all connections.

* Optional – For dimming installations refer to the appropriate dimmer's specification sheet and installation instructions.
